

## **VOLUME #5 - DVD #7**

**RUN TIME: 1 HOUR 53 MINUTES**

**JUNE 1991**

- **With great light and plenty of action, we start out in Green River from our favorite spot, the footbridge.**
- **Don't miss the great SD40-2 action at the depot!**
- **Back in shop area, locomotives move about.**
- **More great views of the yard and mainline action.**
- **The action heats up more! There are times when the shops are switching cars, units are moving in and out of the fuel racks, cars are being sorted in the yard and 1-2 or two trains are going by on the mainline. I need 3-4 cameras!**
- **We continue with the hot action! Amtrak, GECX units and a great WB are notable but then for fun, a military train.**
- **It's time for something different so we head to the summit of Peru Hill and catch more high speed and high altitude action.**
- **Back in Green River we see more yard, mainline action, as well as close-ups of the shops and parts storage areas of the yard.**

**Green River is truly a treasure to be found. It doesn't matter what your favorite railroad is, this is a place that should be visited at least once. Ball parking as write this I'd say it's about 6-7 hours from Salt Lake City but Weber Canyon is awesome also. (Write me and I'll do a trip planner for you!)**

**Don't miss all our other Green River DVD's as well as topics from Enola PA, Columbus OH, North Platte NE, Erlanger KY, Horseshoe Curve PA, Chicago and MANY, MANY more...**
