

VOLUME #11 - DVD #2

RUN TIME: 1 HOUR 56 MINUTES

JUNE 1995

- This DVD starts out at Council Bluffs Iowa. First we see a great series of scenes at the Chicago Central servicing area with all sorts of locomotives in different paint schemes. Don't miss the snowplows!
- Then we see the CNW shop before we head over to the Iowa Interstate yard and 2 stall diesel shop. We finish up at the UP yard.
- We are now heading west along old US Highway Route 30 where we see one train before we enter Fremont Nebraska.
- In Fremont we see several mainline trains as well as some lengthily switching action.
- Small pause in tape...
- We wake up the next morning to find a major wind and rain storm has moved in. It's dark and cold for June! But, we manage to see 8 trains as we head for Grand Island.
- We spend a bit of time at Grand Island where we see 12 trains (6 UP and 6 BN).
- Heading west we see more mainline action as well as CNW GP7(9) in mainline action (though in a siding). CR and CNW units make appearances.
- Arriving in Kearney we see more action in town.
- As we head towards North Platte, the trains are running like street cars (and my War of the Worlds music makes a brief appearance in the back ground!). 7 more trains round out this cold, dark, rainy and windy day. But the rail fanning was great!
